Cambridge IGCSE

Wherever in the world your students want to go, help them get there with Cambridge IGCSE. We created Cambridge IGCSE more than 30 years ago. Today, it's the world's most popular international qualification for both school going students and private candidates. Not only is it truly international - it gives students more options than any other international qualification. That means more subjects to choose from, more ways to learn and more ways to succeed.

Cambridge IGCSE curriculum

The Cambridge IGCSE curriculum offers a variety of routes for learners with a wide range of abilities, including those whose first language is not English. We help students build a programme around their specific needs. Starting from a foundation of core subjects, it is easy to add breadth and cross-curricular perspectives. Encouraging learners to engage with a variety of subjects, and make connections between them, is fundamental to our approach. There are over 70 subjects available at Cambridge IGCSE, including 30 languages, and schools can offer them in any combination. Cambridge IGCSE develops learner knowledge, understanding and skills in:

Subject content

- Applying knowledge and understanding to new as well as familiar situations
- Intellectual enquiry
- Flexibility and responsiveness to change
- Working and communicating in English
- Influencing outcomes
- Cultural awareness.
- Schools worldwide have been involved in the development of Cambridge IGCSE. - The syllabuses are international in outlook, but retain a local relevance. They have been created specifically for an international student body and avoid cultural bias.

What is the difference between IGCSE Core and IGCSE Extended?

To take into account differing abilities, there is a choice between Core and Extended curriculum papers in some subjects.

The Core curriculum is within the ability range of a large majority of students. It provides a full overview of the subject and is targeted at students expected to achieve grades C to G.

The Extended curriculum has been designed for the more academically able. It is targeted at those expected to achieve grades A* to E.

Cambridge International AS & A Levels

Thousands of learners worldwide gain places at leading universities every year with Cambridge International AS & A Levels. The syllabuses develop a deep understanding of subjects and independent thinking skills.

Curriculum

We have a choice of 55 subjects and the freedom to offer them in almost any combination. Learners can specialise or study a broad range of subjects.

Recognition

Thousands of learners gain places at leading universities around the world with Cambridge International AS & A Levels every year. They are a passport to success.

Why choose us

A Cambridge education prepares students for life, helping them develop an informed curiosity and a lasting passion for learning. Schools can shape a Cambridge curriculum around how they want their students to learn, helping them discover new abilities and a wider world. Cambridge students develop the skills they need to achieve at school, university and work.

At Clevers Schools, we have a 90% pass rate for 5 consecutive years and our students have transitioned to various universities and colleges both locally and internationally. With a team of highly qualified staff and unlimited study resources, our students feel in safe hands

Online education

Why choose an online education?

- Find support to meet your individual learning needs - **smaller classes**,
- one-to-one** support from tutors and more flexible learning experience.
- Access the Cambridge International curriculum even if there isn't a Cambridge school nearby.
- Don't miss out on learning if you can't attend school for medical or well-being reasons.
- Study subjects that may not be available in your local school.
- Study wherever you are, even if you move to another city or country.
